

Small change that you give

Will make a BIG change here!

While spending a week in Kathmandu in Nepal we had know idea of the impact that all the people would really make to our lives in such a short time .And how good we all really have it in our parts of the world! Our Orphanage center's name is "Aama ko Ghar" which is situated south part of Thamel. There are 49 kids, 3 are girls between 5-6 ages and the rest are boys between 3-15 ages. BUT there are 6 kids that don't go to school because they do not have a sponsor.

On our trip we were able to buy new pillow cases, sheets and some blankets for the kids to replace very old much needed bedding.

Now after coming home Beck, Kevin (another volunteer we met from Hawaii) decided we would like to continue to help and make a difference in this orphanage. **Our aim is to replace all the beds, mattresses, paint kids rooms and get those 6 kids in school.** Because, your little contribution will help make their bright future! ***So if you have any desire to help and make a difference please contact us to donate some "SMALL CHANGE" as we are making plans to make this happen now with the help of our friends Mukesh Shah and Chiran Phokherel who are Cosmic Volunteers Nepal Coordinators!***
